

# Now's The Time

Lafee

I've never thought i could get this far  
i still hear them say  
No chance, no way And they said, she ain't too smart  
she ain't got what it takes,  
that girl is bound to fail  
i almost bought that shit  
but i ain't gonna quit\*Now's the time, the time to lay it on the line  
The time for me to say and do whatever's on my mind  
i will fight for my right  
will defend my way of life  
come hell or high water  
now's the time\*In the eye of the storm  
but i ain't scared  
'cause after the storm  
there'll be calm somewhere. An army of thousands  
pissin' on my dream  
i don't give a damn  
'casue i have to make them see...  
I never gave a shit  
and i ain't gonna quit\*Now's the time, the time to lay it on the line  
The time for me to say and do whatever's on my mind  
i will fight for my right  
will defend my way of life  
come hell or high water  
now's the time  
The time has come for me to shine  
whatever they may say  
ain't gonna break my stride  
i will make the world see you can realize your dreams  
come hell or high water now's the time\*Now's the time, the time to lay it on the line  
The time for me to say and do whatever's on my mind  
i will fight for my right  
will defend my way of life  
come hell or high water  
now's the time  
The time has come for me to shine  
whatever they may say  
ain't gonna break my stride  
i will make the world see you can realize your dreams

come hell or high water now's the time\*Now's the time, the time to lay it on the line  
The time for me to say and do whatever's on my mind  
i will fight for my right  
will defend my way of life  
come hell or high water  
now's the time
