Brother

Lord Huron

How long have I known you, brother
Hundreds of lives, thousands of years
How many miles have we wandered
Under the sky, chasing our fear

Some kind of trouble is coming
Don't know when, don't know what
I will stand by you, brother
'Til the daylight comes or I'm dead and gone

I've shared my life with you, brother
Since I recall, you've been my friend
You say we're not like the others
Still we must die, all things must end

I know we can't stop what's coming
But I will try, oh how I'll try!
Will you fight with me, brother
One last time, one last fight

Don't turn away, don't tell me that we're not the same
We face the fire together, brothers 'til the end
Don't run away, our time will come but not today
I stand beside you, brother, with you 'til the end

Don't turn away, don't tell me that we're not the same
We face the fire together, brothers 'til the end
Don't run away, our time will come but not today
I stand beside you, brother, with you 'til the end
