

What's My Scene

Hoodoo Gurus

And another thing
I've been wondering lately
Oh, baby, tell me
Where have you been? Now the stage is set
Where's my Juliet, baby?
Is it maybe, my midsummer
Night's Dream? What's my scene?
What's my scene?
What's my scene?
Tell me, what's my scene? Like a talent scout
I'm always checking out new blood
Oh, I'd do good
If you tell me your game Playing Solitaire
Doesn't get me where you would
And honey you could
Play by any rules that you to name What's my scene?
What's my scene?
What's my scene?
Tell me I gotta know What's my, what's my
What's my, what's my scene?
What's my, what's my
What's my, what's my scene? They say, yeah, they say
Making love, you can make it pay
They say, yeah, they say
But we know there's a better way any day And another thing
I've been wondering lately
Am I crazy
To believe in ideals? I'm a betting man
But it's getting damn lonely
Oh, honey, if only
I could be sure what I feel What's my scene?
What's my scene?
What's my scene?
Tell me I gotta know What's my, what's my
What's my, what's my scene?
What's my, what's my
What's my, what's my scene? What's my, what's my
What's my, what's my scene?
What's my, what's my

What's my, what's my scene? I've been caught in
Someone else's scene
Where, oh where
Oh where, can my scene be?
Please answer me, what's my
