

Pop Goes The World

Gossip

Find yourself in a situation
Can't talk your way out of
Stimulate the conversation
How do you rise above?
You try to tell some one
But you can't describe it We'll start a demonstration
Or we'll create a scene
Make noise from our frustration
Newspapers, magazines
We'll turn them on their heads
You can't deny it For once we'll do what comes naturally
We'll approach it casually with no apology, woah
For once we will have the final say
Goodbye to yesterday 'cause we know we're hear to stay, woah Pop, pop, pop goes the world
New sensation
Pop, pop, pop goes the world
New creation Give every generation
A different set of rules
We'll start with TV stations
The radios and schools
Just try to have some fun
And don't get caught We'll capture their attention
We'll make them quite aware
Of all of our intentions
We'll make them stop and stare
They'll take a second look
On second thought For once we'll do what comes naturally
We'll approach it casually with no apology, woah
For once we will have the final say
Goodbye to yesterday 'cause we know we're hear to stay, woah Pop, pop, pop goes the world
New salvation
Pop, pop, pop goes the world
New translation Pop, pop, pop goes the world
New elation
Pop, pop, pop goes the world
New sensation
