

Talk To Me

Ringside

I've got a feeling
You've been so confused
There's something that you've been fighting
Deep inside you
I know you got some damage
I know what you've been through
But there's nothing I can't manage
I'm gonna take care of you
Talk to me
Oh, you seem a little nervous
Baby, you ain't alone
But lady, I'm at your service
So, c'mon let me take you home
Talk to me
