The Wilder Side Of You

David Hasselhoff

No one knows the secret passion
Hiding in your sweet brown eyes
I can still recall the first time
Baby what a big surprise
Looking like a silver angel
Till I got a closer view
Baby till I moved on to the wilder side of youWhen I felt your hungry arms around me
When I felt your body wrapped in mine
It was like a great big bolt of lightning
Burning up and down my spine
You've got such a wild imagination
You made all my fantasies come true
Baby I just never knew the wilder side of youWhen we're in a crowd of strangers
People think you're soft and shy
When they see the way I'm smilin'
Baby they must wonder why
They don't know you drive me crazy
How you thrill me through and through
Baby when I push on to the wilder side of youNo one has your beauty and your freedom
Now you've got me cravin' wantin' more and more
Baby I can feel myself exploding
Everytime we close the door
Don't know where you got this magic power
How you do the special things you do
Baby I just never knew the wilder side of youYou're my private party
You're my one woman show
No one's more exciting baby
When you let it goCan't remember so much satisfaction
Can't remember when I felt so free
All we have to do is touch and baby
I become a wilder me
You know how to keep my passion flowing
You know how to start me up on cue
Baby I just never knew the wilder side of youDon't know where you got this magic power
How you do the special things you do
Baby I just never knew the wilder side of you
Baby I just never knew the wilder side of you
Baby I just never knew the wilder side of you
