

Candlebright

Stevie Nicks

For no special reason
I am leaving you for awhile tonight
I'm flying far above you
Still I love you, you make things right I've been with you before
I'll be with you again
I'll come back for more, yeah
The story has a strange ending Well, you know me, I'm a nomad
I can't feel bad about the way I am
I've been rolling around my whole life
You're my candlebright in the window You guide me back again
And I come when you shine
You are not my friend, no
But I am something of a dreamer
I am something of a dreamer
I am something of a dreamer Well, you know me, I'm a nomad
I can't feel bad about the way I am
I've been rolling around my whole life
You're my candlebright in the window You guide me back again
And I come when you shine
You are not my friend, no
But I am something of a dreamer
I am something of a dreamer
I am something of a dreamer Still I love you
My candlebright
You are not my friend
(In the window)
But still I love you You're my candlebright
Still I love you
(In the window)
But you are not my friend
(My candlebright)
But still I love you
(In the window) Still I love you
Still I love you
(I can't feel bad)
Still I love you
