

Turn out the Light (feat. J. Balvin)

Cris Cab

I've got a clear mind and a guilty conscious
I don't, I don't hesitate
Blaze up, little skeleton inside my closet
Gotta, I gotta demonstrate
There must be something, inside of the water
Something that I drink
Lock up your mother, lock up your daughter
Ain't nobody said Turn out the light
Just get - get the [?] right
Cause there's - too many people day after day
They got - turn off the light
There's no need to fight
Just get the [?] right
Cause there's - too many people day after day
They got - turn off the light
Oh I started looking inside the mirror
So there's something [?] escaped
I got the feeling that I'm young and helpless
So I, so I medicate
I'm always thinking about the solution
I kinda meditate
I'm asking God about the answers
He said, there's too much on your plate Turn out the light
Just get - get the [?] right
Cause there's - too many people day after day
They got - turn off the light
There's no need to fight
Just get the [?] right
Cause there's - too many people day after day
They got - turn off the light
Somos igual, aquÃ-, allÃ¡, ahÃ- o acÃ¡
Hay que bailar, aquÃ- la vida disfrutar
No lo tomes personal, mantente siempre real
Misma nacionalidad, somos de la mÃ³sica
Ven pa' aca, cambia esa mala cara
Liberate, suelta esa vibra mala
No lo tomes personal, mantente siempre real
Misma nacionalidad, somos de la mÃ³sica Turn out the light
Just get - get the [?] right

Cause there's - too many people day after day
They got - turn off the light
There's no need to fight
Just get the [?] right
Cause there's - too many people day after day
They got - turn off the lightOh
Oh
