

Throwin' Shapes

Minus The Bear

Maybe come with me to the coast
And watch the way the rain comes down
Out of the shadow she's more passionate
We'll watch her roll in from the south
She'll wrap her sheets 'round us
Forget the sun
Moving from sea to land dancing
Swinging with the boats out there
She steps on toes if she wants to
No one's saying no, she wouldn't care
She'll wrap her sheets 'round us
Forget the sun
She'll wrap her sheets 'round us
She leads this one
Would you go in?
She'd soaked us wet
Fingers touching bare skin
Makes you miss him
She'll wrap her sheets 'round us
Forget the sun
She'll wrap her sheets 'round us
She leads this one
