Past Midnight

Cadillac

Feels like a million past midnight
Here comes the mooring side
Forget about the moonlight
The night that I had, it?s on the run, oh

(Chorus)
Dance the night away again
Can?t pretend we are just friends anymore
It?s not hard to understand
when we both feel so till I do

I know nothing about you, mysteriously blind
It won?t stay that way forever
so let?s see what we can find, yeah

(Chorus)
Dance the night away again
Can?t pretend we are just friends anymore
It?s not hard to understand when we both feel so till I do

Dance the night away again
Past midnight, past midnight
Can?t pretend we are just friends anymore

(Chorus)
Past midnight, past midnight
It?s not hard to understand when we both feel so till I do
Past midnight, past midnight?.ooh
