

# Past Midnight

## Cadillac

Feels like a million past midnight  
Here comes the mooring side  
Forget about the moonlight  
The night that I had, it's on the run, oh

(Chorus)  
Dance the night away again  
Can't pretend we are just friends anymore  
It's not hard to understand  
when we both feel so till I do

I know nothing about you, mysteriously blind  
It won't stay that way forever  
so let's see what we can find, yeah

(Chorus)  
Dance the night away again  
Can't pretend we are just friends anymore  
It's not hard to understand when we both feel so till I do

Dance the night away again  
Past midnight, past midnight  
Can't pretend we are just friends anymore

(Chorus)  
Past midnight, past midnight  
It's not hard to understand when we both feel so till I do  
Past midnight, past midnight..ooh
