

Healing Hands

Citizen Cope

I will never forget your healing hands my love
I thought my heart had stopped
I swore I had given up
I will never forget your healing hands my love
You gave me daylight you gave me sunlight Turn the tape recorder on
He just left Jackie O for Marilyn Monroe
We're all bought and sold
For tobacco, firearms and alcohol
What's a pocket full of gold
Without a woman that you could hold
Can't afford to be on the back burner no more
Now I got a lot of places to go Cause the actions of a few
Have put a world in harms way
And history has proven
That they killed our leaders dead
And I don't know about your right and wrong
I got a muse
From the east to the west
All I know is if I never said it before
I'm going to say it with my last breath I will never forget your healing hands my love
I thought my heart had stopped
I swore I had given up
I will never forget your healing hands my love
You gave me daylight you gave me sunlight Find something you can sell
Set you on a trail
Have a ball and a belle
Buy a ticket out of Hell
Not as far as I could tell
Very Well Bubba I'm a bust your tail
My uncle Clarence hit
The hammer with nail
Wash your hand before
You come to the meal
Cut out the light
Cause it comes with a bill Cause the violence of a few
Have put a World in harms way
And history has proven that they
Killed our leaders dead Well I don't know about your right and wrong
I got a muse from the east to the west

All I know is if I never said it before
I'm going to say it with my last breath I will never forget your healing hands my love
I thought my heart had stopped
I swore I had given up
I will never forget your healing hands my love
You gave me daylight you gave me sunlight I will never forget your healing hands my love
I thought my heart had stopped
I swore I had given up
I will never forget your healing hands my love
You gave me daylight you gave me twilight Never forget...
