

Hello to Say Good Bye (feat. Curtis Dayne)

Daforce

Lyrics by Dominic LaforceHello to say good byeIntro;You gotta voice? tell me you gotta voice?

you on top of the world? why ?

is it cuz ppl love you? they just happy for your success huh?

Must be that?Yo what we doin man? who we kidding

take a look around.. are we dreaming are

we in denial, hows our cash game ?

hows your street fame

Rap:Hello to say good bye, good night,

what it look like, something ain't right

can't put my finger on it, but all the come ups want it

hustlin to dead ends, str8 lines bend, making magic with a pen

very different than imagined, out of breath just cant fathom

the lies and blurred truths, have that neck in a nuse

cut em loose, you in that tournament like bruce

right kick, left kick, vocals punch thru like a tight fist

others grapple with your movements,then fade out when trouble introduces

rock widd it.. no choice but gidd it, glove tight fitted, fake ones omitted

drop a jewel, floss a gem, don't fear menChorusHello to say good byeRap:

It is what it is,, no big deal, won't sweat it, but get it

on point not mislead, bake bread, nuff said,,

the valleys the peaks the mountain so high, wont deny

when they push and they try to turn joy into crys

that hand in the cookie jar, reoccurring dreams of being a big star

venom at the bottom, stingers pointed ready to sting

a cemetary or a prison wing,, the only option,,

nah momma said god adopting, slow down dey say, quite shocking

look where you walking, watch how you talking

dont you see ppl dropping, young ones hanging from a stocking

Evils stalking, haters blocking, paradise lifestyle mockingChorusHello to say good byeChorusHello to say good

byeBridgeGive us our daily bread, keep us out the red, enuff said

no tears, no crying, no lying, way past our heads...

we need fire a spark but not lead, no gun shells, nuff deadEndingFade away quietly in the dark.... not a sight...

not a sound
