

She Reminds Me of You

Brian Mallery

She's got blue eyes and a smile that's heaven sent;
When she holds my hand and touches my heart the way you did;
And though you're gone, well I'm not alone;
I've got someone who's gonna help me make it through;
No-one could ever take your place but she's the closest thing to you.

Chorus:

The way she walks, the way she talks, with her hands;
It's almost like you're right here with me again;
She's got that funny laugh and those little moves;
Everything about her reminds me of you.

She kept me going when I thought all hope was gone;
At my weakest point it was her love that kept me strong;
These ribbons and curls, she's our little girl;
You're still with me, she's the proof;
Our love will never die, she reminds me of you;

Chorus:

The way she walks, the way she talks, with her hands;
It's almost like you're right here with me again;
She's got that funny laugh and those little moves;
Everything about her reminds me of you;
Oh, everything about her, reminds me of you.
