Ignite

Ricky Dillon

Tick tock, tick tock
Yeah, I'm staring at the clock
Just waiting on my time to come, to come, to come
Yeah, I'm trying to be patient
But I'm getting tired of waiting
No more walking gotta run, run, run

Once we light it up
Can't put it out
There's no way that this flame is running out
We can't control
We can't slow down
There no turning back

Once we ignite
Yeah we'll be burning up across the sky
Yeah when we ignite
We'll be shining like a diamond bright

So let it burn, burn, burn
Let it burn, burn, burn
Nothing's going to stop us now
Just let it burn, burn
Let it burn, burn, burn
Nothing's going to stop us now

I know you can feel it
Don't try to conceal it
Your star light up the night, the night, the night
Don't worry about the mistakes
Never let them be replayed
Get it wrong this time
It's right, it's right, it's right

Yeah, we ain't slowing down
Nothing can stop us now
So we ain't coming down
So we ain't slowing down
Nothing can stop us now
So once we light it now

You'll wait to light it down
