

Gemini I

The Gathering

On the day that you woke me up from our dream to your nightmare
I didnt know it was possible to feel so alone being with you
I tried to move, but you glued me to your side, with all that you gave me
Did you catch the moon togetherWhen I saw the look upon your face
I knew we had lost precious hours through our daysDid her skin feel as soft as you always said mine are to your
fingers?
Did her eyes look as deep into your soul as you always said mine didHunting down all my strength to reveal that
clouds have appeared for regression
I tried to move but youve glued me to your side with all that you gave me
Will I find my way home
