

# Catapult (feat. Kat Vinter & Little Simz)

## Lena

so still for the longest time  
I couldnt see 2 steps ahead I was blind  
I, I, I  
I could not deside  
When I should die, the triggler would lead to the light  
Then I wanted Don't know if you know what you messed up my space  
Just what I needed to move from this place  
Then I wanted  
Gave me a reason to open the gate  
Just when it felt like it could be too late  
Launched me into, launched me into another atmosphere  
Was it for you, was it for you  
I would not be here  
Want you to know, want you to know, your my catapult  
Want you to know, want you to know  
Want you to know, want you to know, your my catapult  
Want you to know, want you to know  
Just do strangers rendezvous  
Make me forget, everything I ever knew  
You, you, you  
Waiting 'round to bend  
A second before, then we would never have met  
Coincidence  
Don't know if you know what you messed up my space  
Just what I needed to move from this place  
Coincidence  
Gave me a reason to open the gate  
Just when it felt like it could be too late  
Launched me into, launched me into another atmosphere  
Was it for you, was it for you  
I would not be here  
Want you to know, want you to know, your my catapult  
Want you to know, want you to know  
Want you to know, want you to know, your my catapult  
Want you to know, want you to know  
I'm takin' nothing to the sky  
You can see me fly  
You was you and I  
He was helenized

Tell me what you try  
Livin' in the live  
figured that I might see you in another live  
Please don't you trie me this time  
Can't stand me loosing my mind  
I'm gone  
I've been searching just to find  
Sign knocking  
keep me saying while I'm here  
Sign knocking  
main taim while I'm here  
This is never been a game  
I'm sencive  
Promis I will never change  
I'm makin' it clear  
Boy no fears  
This is my truth and you heared it here first  
We probably been through the absolut worst  
Boy you destroy my it might not be worth it  
But where more than worth it and that's why it hurts  
Don't you listen to words  
Comin from anybody else but me  
Is it even what I wan't but we'll see  
What will be, will be  
But don't underustin me, me no  
Launche me into, launche me into a another athmosphere  
Was it for you, was it for you  
I would not be here  
Want you to know, want you to know, your my catapult  
Want you to know, want you to know  
Want you to know, want you to know, your my catapult  
Want you to know, want you to know
