

# Sing For You

Tracy Chapman

One, two, one, two, three, four Sweet and high at the break of dawn  
Simple tune that you can hum along too  
I remember there was a time  
When I used to sing for you [Chorus]  
Do do do, do do do  
Do do do, do do do  
Do do do, do do do I used to sing for you [Chorus] Knew all the words to the popular songs  
With the radio on full volume  
I remember there was a time  
When I used to sing for you [Chorus] I used to sing for you [Chorus] Forget the chorus, you're the bridge  
The words and music to everyday I've lived  
There's nothing, I wouldn't give  
For one more time, when I can sing for you [Chorus] Oh Yeah [Chorus] Soft and low when the evening comes  
Holding you, sleeping in my arms  
I remember there was a time  
When I used to sing for you [Chorus] I used to sing for you [Chorus] I used to sing for you
