

Roggae

Phish

The circus is the place for me with bears and clowns and noise
I love the shiny music that descends from overhead
Gordan knew the moment when the stars all turned around
But from that vantage point I frowned If life were easy and not so fast
I wouldn't think about the past
I can't forget to turn the earth so both sides
Get their share of darkness and of light So now I wander over grounds of light and heat and sounds and mist
Provoking dreams that don't exist
A circus of light where dreams can take flight
In the peacefulness dreaming dreams brings If life were easy and not so fast
I wouldn't think about the past
The circus is the place for me / If life were easy
The circus is the place for me / If life were easy
The circus is the place for me / If life were easy
The circus is the place for me / If life were easy
