Behind Closed Doors

Johnny Gill

Oh baby, when I walk up the spot
I had you on my mind
And just like the sun
My love is much on the rise
When I get you alone,
I gonna have my sexy time, uh yeah
So we can blow it all on burst of day, hey

Behind closed doors
When we get together,
I'm about whatever, girl
Behind closed doors
Anything you need,
I'm just here to please you, babe
Behind closed doors
I control the camera
You can be the dancer, girl
Behind closed doors, yeah
Behind closed doors
I'll have you singing
Behind closed doors, yeah
Behind closed doors

Ain't nowhere I rather be
So let it come down just like I'm drowning in your ocean
Let it rain for you and me
Oh girl, let me be your number one
Because I'm gonna be real
You're killing those heels,
Loose the crowns and I leave them on

Behind closed doors
When we get together,
I'm about whatever, girl
Behind closed doors
Anything you need,
I'm just here to please you, babe
Behind closed doors
I control the camera

You can be the dancer, girl
Behind closed doors, yeah
Behind closed doors
I'll have you singing
Behind closed doors, yeah
Behind closed doors
Behind closed doors

Let your love come down
I wanna feel your love
I wanna feel your love, all over

Behind closed doors
When we get together,
I'm about whatever, girl
Behind closed doors
Anything you need,
I'm just here to please you, babe
Behind closed doors
I control the camera
(Anything that you want)
You can be the dancer, girl
Behind closed doors, yeah
Behind closed doors
I just want you, I just need you
Behind closed doors
Let your love come down
Behind closed doors, yeah
