

I'm from the Sun

Gustafer Yellowgold

Hey! I'm from the sun
I told everyone I lived on the sun

I worked starting young
Mowing golden yards
Climbed every rung
Earned a living on the sun
Washed scalding car
I saw the steam rise up
Into oblivion

Did I say I'm from the sun?
I told everyone I lived on the sun

Weeks go different on the sun
Nighttime is no fun
When you don't know when it comes
No winters on the sun
No snowflakes on your tongue
You watch the clouds rise up
Into oblivion

Did I say I'm from the sun?
I told everyone I lived on the sun
Oh, oh, oh

So when my days are done
I'll be buried in the sun
Travel through its veins
Where I'll circulate
Through a sunspot I'll escape
You'll watch my soul rise up
Into oblivion

Did I say I'm from the sun?
I told everyone I lived on the sun
Hey! I'm from the sun
I told everyone I lived on the sun
Oh, oh, oh
