

# Days

## The Drums

And now days go by  
And i never needed you  
And now days go by  
And i never needed you And i worked so hard  
And i killed myself  
And you broke my bones  
And i sold my soul And now days go by  
And i never needed you  
And now days go by  
And i never needed you And i could've been your mother  
And i could've been your sister  
Be your twin brother  
I just wanted to be  
Wanted to be And now days go by  
And i never needed you  
And now days go by  
And i never needed you We were just wasting time (x6) And now days go by  
And i never needed you  
And now days go by  
And i never needed you And now days go by  
And i never needed you  
And now days go by  
And i never needed you
