Slime Creatures from Outer Space

"Weird Al" Yankovic

Things just haven't been the same
Since the flying saucer came
Now the aliens are on the looseWell, we tried to hold 'em back
Tried to ward off their attack
But our atom bombs were just no useThey were ugly, they were mean
Biggest heads I ever seen
They made everybody scream and shoutFirst they leveled Tokyo
Then New York was next to go
Boy, I really wish they'd cut it outThey wasted everybody on my block
There goes the neighborhood
They'll zap you with their death ray eyes
And blow you up real goodRun for your lives
(Slime creatures from outer space)
(Slime creatures from outer space)
They're not very nice to the human race
(Slime creatures from outer space)There's more comin' everyday
And they just won't go away
Now they're reproducing in the sewersThey got slimy lizard skin
And an evil lookin' grin
And they sure could use some manicuresThey got hands all covered with fungus
They got eyes like some kinda bug
I sure hope they don't come in here
I just shampooed the rugRun for your lives
(Slime creatures from outer space)
(Slime creatures from outer space)
They're really makin' a mess of this place
(Slime creatures, slime creatures)(Slime creatures from outer space)
(Slime creatures from outer space)
(Slime creatures from outer space)(Slime creatures from outer space)
(Slime creatures from outer space)
(Slime creatures from outer space)They'll rip your head off just for fun
They'll paralyze your mind
They're wearin' out their welcome
I don't think I like their kindThey'll suck your brain out through a straw
You just can't trust those guys
So hide the children, lock the doors
And always watch the skiesLook out, here come the
(Slime creatures from outer space)
(Slime creatures from outer space)They're an intergalactic disgrace

(Slime creatures from outer space)
(Slime creatures from outer space)I wish they'd just get outta my face
(Slime creatures from outer space)
(Slime creatures from outer space)They're makin' a big fat mess of this place
(Slime creatures, slime creatures)Oh, where did they come from?
(Slime creatures)
What do they want from us?
(Slime creatures)Who do they think they are?
(Slime creatures, slime creatures)
Why don't they leave me alone?
(Slime creatures, slime creatures)
They're really getting on my nerves
