

More Storms Comin'

[Mark Selby](#)

Opened my window in the dead of night
Felt that wind blow, saw the lightning strike
There's more storms comin'
It sure was a sunny day
But there's more storms comin'
More storms comin' my way Whistle floatin' on down the tracks
Baby's goin' and she won't be back
There's more storms comin'
Just watch that sky turn gray
There's more storms comin'
More storms comin' my way Preacher yells and the hound-dog moans
Tryin' to tell me what I've always known
There's more storms comin'
I already smell the rain
There's more storms comin'
More storms comin' my way
