

# Someone's Got to Lose

[Samiam](#)

i feel it coming winding into clutch position talking myself up for the transition second thoughts are hanging  
over my head you know i've heard a lot of stories if they're not true then why am i still worrying i don't know  
which way i'm being led well someone's got to lose am i lying if i wonder will i walk i wonder should i even  
bother yeah someone's got to lose i can feel it coming in
