Moron

C.AarmÃ©

Its hard enough to even fake a smile
Disillusioned, Im in denial
Theres something missing cause I cant feel a thing
Im desensitizeYou can fake this and I cant take anymore
Im not so tough, I cant ignore
You can fake this and I cant take anymore
Im not so tough I cant ignore anymoreAll this confusion is running deep inside my head
How long can I keep this up before I end up dead?Cant believe that it could come to this
Its only feelings, so I cant resist
Im falling deeper in denial but I still try to
Believe in somethingYou can fake this and I cant take anymore
Im not so tough, I cant ignore
You can fake this and I cant take anymore
Im not so tough I cant ignore anymore
Anymore, anymore, anymore
