

Servant of Sorrow

Swallow the Sun

The hands of time
Are frozen in this moment
I can't spit it out
For fear has overtaken my voice
Waiting seems impossible
Different stages
Waiting seems impossible
Different stages
Waiting seems predictable
Different ideas
It is I that will have to live with this
I, betrayer of hearts, I, servant of sorrow
Hear I am, the worthless king
Join my legions of heartless
Here I am the worthless king
Join my legions of heartless
Here I am the worthless king
Join my legions of useless
Wandering the great depths
Searching the canyons for truth
Discovering every darkness
Bringing its ugliness into new light
It's come down to this, all or nothing
Our choice, decide, decide our suffering
It is I that will have to live with this
I, betrayer of hearts, I, servant of sorrow
