Lamb Of God

Take 6

Once upon a long night after a hard cry
Somewhere in Bethlehem
A baby graced the silence sweetly he's crying
I am Emmanuel
Then angels gave him music, shepherds gave reverence
And a message to the land
A widow held him cherish the God
Who became a man
But oh, Lamb of God, oh, Prince of peace
What tribute shall I bring to worship Thee
I have no gold to lay at Your feet
So Lamb of God I offer me
Can You see the wise men? A star did guide them
Searching all the earth
Till they found the one child the very godchild
Who ruled the universe
Did they know the lady's little baby
Was God in fully man
And everything they gave him he himself
Had made with his hands
But oh, Lamb of God, oh, Prince of peace
What tribute shall I bring to worship Thee
I have no gold to lay at Your feet
So Lamb of God I offer me
I bring You all my hopes
I bring You all my dreams
I give You all my soul
My min and all my strength
I wrap them all inside
My heart to give to the
And I come
O come let us adore Him
O come let us adore Him
O come let us adore Him, Christ
Oh, Lamb of God, oh, Prince of peace
What tribute shall I offer Thee
I have no gold to lay at Your feet
So Lamb of God may I offer
I have no gold to lay at Your feet

So Lamb of God, please let me offer me
Lamb of God I offer me
