

# We Will Go On

## Stephen Stills

To forget about lovin' you at all is beyond me  
I cannot understand, yeah  
Here without you is loneliness  
I called out in desperation  
Give me back your hand I can't believe I've heard you say forever  
It may be my naivet  
But life is real and not a play  
Together we will go on And I have not the faintest glimmer of the past  
And tomorrow will come and go away  
And my heart is broken but will last  
My spirit cries out to you for space  
It is good can you feel it, it is strong cannot defeat it  
And I don't believe you've gone away Don't believe I've heard you say forever  
It may be my naivet  
But life is real and not a play  
Together we will go on And as my future grows darker every day  
I can't help wonderin' how you feel  
About how high a price we have to pay  
Broken dreams, broken hearts that will not heal  
And I don't believe you've gone away Don't believe I heard you say forever  
It may be my naivet  
But life is real and not a play  
Together we will go on
