

# Prove Your Love

## Bananarama

Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion How did it get to this?  
I've fallen under your kiss  
Tell me what is on your mind  
Maybe tonight we'll find I gotta know  
I gotta feel  
I gotta say, "Hey  
This is for real" Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion Some things were meant to be  
Like you were meant for me  
Why don't you make your move?  
I'll leave it up to you I gotta know  
I gotta feel  
I gotta say, "Hey  
This is for real" Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion I gotta know  
I gotta feel  
I gotta say, "Hey

This is for real" Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion Prove your love  
Come on and make it happen  
Prove your love  
Show a little passion
