Sorry

Boris Potskov

I don't know where I lost, tenderness of the heart
Whatsoever story
Happened in the past.
Whatever reasons stumped,
Whatever crashed my life.
I'll ever sorry but
thus's today more wise.
Anytime I stray away in some other stupid way
In my heart is "Sorry" I don't know where I am.
And I stride, stride again in response of old memories and
so remember I don't know any crime.
Anytime I stray away in some other stupid way in my heart is "Sorry" and
just I feel when I greet your woes
but I need your soul in my heart and
even more... in my heart is "Sorry" and just the Love...

I don't know when my eyes will see again the light
Don't ever sorry, just open them more wide...
Whatever reason makes you smile
whatever reason is down don't ever sorry,
take them, be wise...

Anytime I stray away in some other stupid way in my heart is "Sorry" and
I donâ€™t know where I amâ€¦
And I stride, stride again in response of old memories and
so remember I don't know any crime.

Many time I stray away in some other stupid way in my heart is "Sorry" and
just I feel when I greet your woes
but I need your soul in my heart and even more... and
in my heart is "Sorry" â€¦. enjoyâ€¦.just the Love...

Anytime I stray away in some other stupid way in my heart is "Sorry" and
just I feel when I greet your woes
but I need your soul in my heart and even more... and if you'd like the story enjoy the Love.....
