

Stung

Varsity Fanclub

You have got me stung I woke up & thought I was dreaming
When I read your text
It said you caught me creeping on Myspace
Now I am your ex (your ex)
I went to a double feature
& realized that I don't need her
Baby girl, I close the curtain now
She's gone, she's gone
Sometimes (sometimes)
You really can't see how good you got it
I lied to you
To you I never, ever thought we'd end up like that
Never thought I'd ever go behind your back
But everybody needs a second chance
Like you & I, you & I
And I now realize you're the only one
I apologize for the things I've done
I guess the love bug has got me stung
It's you & I, you & I
I'm stung, You & I
Baby girl it's you & I
I'm stung, You & I
It's you & I, you & I
I'm stung She asked me baby how could you do this
This is what I said (I said)
I'm sorry that I put you through it
But I don't want regrets (no, no)
This is a very sad, sad story
I hope it ends okay (okay)
Baby girl, could you please forgive me
At the end of the day (the day)
Sometimes (sometimes)
You really can't see how good you got it
I lied
It wasn't greener on the other side
So I Never, ever thought we'd end up like that
Never thought I'd ever go behind your back
But everybody needs a second chance
Like you & I, you & I

And now I realize you're the only one (only one)
I apologize for the things I've done
I guess the love bug has got me stung
It's you & I, you & I
I'm stung, you & I
Ohh Oooh
I'm stung, you & I
It's you & I, you & I If you're feeling me put on hand up
One hand up, One hand up
If you're feeling me put on hand up
(Everybody needs a second chance)
One hand up, One hand up
If you're feeling me put one hand up
Put one hand up, One hand up
If you're feeling me put one hand up
Everybody needs a second chance I never, ever thought we'd end up like that
Never thought I'd ever go behind your back
But everybody needs a second chance
Like you & I, you & I
And now I realize you're the only one (only one)
I apologize for the things I've done
I guess the love bug has got me stung
It's (you & I) you & I, (you & I) you & I
I'm stung, you & I (Ohh)
I'm stung, you & I
Like you & I, you & I
I'm stung, you & I
I'm stung, you & I
You & I, you & I
I'm stung, you & I
Girl, you got me stung
I'm stung, you & I
Baby girl, you got me stung
I'm stung
Got me stung, oh
