

# Be A Star

Tyra Banks

Eve's great, no matter where she goes  
Dress her up from her head to her toes  
On the town, at the mall  
Eve loves high fashion  
After dark at the club  
She'll spend the whole night dancing Shine bright, shine far,  
Don't be shy, be a star  
Where you live, where you are, be a star  
Shine bright, shine far,  
Where you live where you are be a star  
Eve helps the world, and she does it right,  
She takes a stand, eve shines so bright,  
Now get all of your friends and let's get together,  
We can make a change that will last forever Shine bright, shine far  
Don't be shy, be a star  
Where you live, where you are, be a star Shine bright, shine far  
Don't be shy, Be a star  
Where you live, where you are  
Be a star  
Shine bright, shine bright,  
Don't be shy, be a star  
Where you live, where you are  
Be a star  
Shine bright, shine far  
Be a star  
Where you live, where you are  
Be a star  
Shine bright, shine far  
Don't be shy, be a star
