

Burn It All Down

Lexi

(V1)

I remember how I use to worship
and said that nothing else could have my love
I would dance before my king and daily I would sing of your goodness and your mercy
My intentions have been pure, but Iâ€™ve strayed
and my passion for your heart has been displace
Bring me back to where I first believed in your light
Lord Iâ€™m sorry for what Iâ€™ve become

(Chorus)

Burn it all down and leave only you
Let nothing stand in the place of your truth
All that weâ€™ve made and buildings weâ€™ve raised
All thatâ€™s in vain you can take it away and leave only you, leave only you

(V2)

If my ambition blocks the path where you lead
and if my drive directs my heart from destiny
Lord if I ever lose my way and my own desire over take me with your holy fire

(Chorus)

Burn it all down but leave only you and let nothing stand in the place of your truth
All that weâ€™ve made and buildings weâ€™ve raised
All thatâ€™s in vain Lord you can take it all away and leave only you

(Bridge)

Have mercy on me oh God with your unfailing love
show me compassion and wipe out my sin
and purify me again

(Chorus)

Burn it all down leave only you
Iâ€™ll let nothing stand in the place of your truth
Burn it all down and leave only you
let nothing stand in the place of your truth
All that weâ€™ve made and buildings weâ€™ve raised
All thatâ€™s in vain you can take it all away
Burn it all down but leave only you and let nothing stand in the place of your truth
All that weâ€™ve made and builds weâ€™ve raised
All thatâ€™s in vain take it away

All that weâ€™ve made and builds weâ€™ve raised
All thatâ€™s in vain take it away leave only you
leave only you
