

This Feeling (Purple Disco Machine Remix)

Lâ€™Tric

I got this feeling that I don't feel every day
There is a reason why I should feel this way but. (x3 for the first usage)It's not because the skies are blue no
longer grey
It's all because the sadness is fading away(Shine, shine your light, shiiiine yooooour liiiight)I got this feel ("feel"
is fading out as its being repeated, x2)Light
Shine your light I got this feeling (repeated infintely, getting faster and the word "feeling" is not said near the
end)(Shine, shine your light, shiiiine yooooour liiiight)
