

Little Room

RTLCL Summer Staff & Nick Ehrhardt

When the world is shaking, and all my rocks are breaking, my little heart is aching

Chorus

To be inside of my little room where I can pray, trust that God will find a way to, even on the darkest night, fill
the sky with little sparks of light

God I pray (God I pray)

God I pray

God I pray

When the wind is burning, and all my fears are churning, my little heart is yearning

Chorus

God help me to face the weather(When the raining starts)

God help me to hold together(When I fall apart)

God teach me how to pray(When the questions start)

God teach me how to stay(When I'd rather run away)

God I pray (God I pray)

God I pray

God I pray

When the lightning flashes, and the thunder claps and crashes, my little heart is asking

Chorus
