

You Can't Moan Can You?

The Wedding Present

I was just trying to hide a yawn
I think I've noticed that its dawn
But I'll stay longer if you wantShe just caught you off your guard
And I know it can be hard
But that's really not the pointWell, just try to get away
Go and see your parents for a day
That's what I'd do myselfShe is not the only one
And its easier said than done
But try and think of something else
