

Golden Hind

Dr. Dog

Ever changing days
Written on my face
Lovely morning rain
Practically okay I feel like I like feeling you
Feelings unwind into you
I really care about you Folding through my mind
Time releases time
Measurements unwind
Through the Golden Hind Floating to the ground
Stand atop a mound
Circles go around
Other circles
I feel like I like feeling you
Feelings unwinding to you
I really care about
Feel like I like feeling you
Feelings unwinding to you
I really care about
I really care about
I really care about you
