## Slander

## **Trash Talk**

Line up and call me names,

Come spit in my face.

It doesn't matter,

I'm in a better place

Slander

Drag my name through the dirt,

Bring me disgrace.

It doesn't matter,

I'm in a better place.

Slander

Line up and call me names,

Come spit in my face.

It doesn't matter,

I'm in a better place

Slander

Line up and call me names,

Come spit in my face.

It doesn't matter,

I'm in a better place

Slander
