

Station (feat. Holly Marilyn)

[thenewno2](#)

It's the best, it's it's
He's the best, he's the best
he he's the best, he's the best..
the future can't..She's changin just face it
if different just changin face it
just take it, don't waste it she's changin
don't fake it don't waste it, she's changinI'm changin so fast you can't keep up
take a little piece of me with you my love
I'm changin so fast you can't keep up
take a little piece of me, with you for love
I'm changin so fast you can't keep up
take a little piece of me, with you for love
it's changin so fast you can't keep up
break another little piece of me and give me upChangin, just take it
she's changin, it's different
just changing, face it
it's different, she's changin, just face it
changin, naked, don't take it
she's changin, just face it, station
she's changin, just face it, it's wasting
she's changin, so complacent, she's facin
she's changin, she's changin', stationI'm changin so fast you can't keep up
take a little piece of me with you my love
I'm changin so fast you can't keep up
take a little piece of me, with you for love
I'm changin so fast you can't keep up
take a little piece of me, with you my love
it's changin so fast you can't keep up
break another little piece of me and give me upI'm changing so fast, I'm changing so fast,
I'm changing so fast
