Be a Child At Christmas Time

Doris Day

Be a child at Christmas time
With a merry heart aglow
Through a frosty window pane
You can see the falling snowTrim the tree with candy canes
Listen to the church bell chime
Say a little prayer at nights
Be a child at Christmas timeBe a child at Christmas time
Listen to the church bell, church bell chimeOnly children understand
What a merry heart can do
Be a child and you'll agree
Everything is bright and newWhen the snow comes dancing down
And you hear the church bell chime
Let your heart be young again
Be a child at Christmas time
