

# When We Talk About Forever

Steve Wynn

I've gathered myself  
From bits and remains  
And the pieces I've pulled  
From all of my daysAnd I'm handing them off  
Not to me or to you  
But the world that we're making  
On this very dayCome, take my hand  
Try to understand  
The things we can only see together  
What we mean when we talk about foreverI look in your eyes  
And see all of the days  
And all of the words  
That you've ever heardAnd all of those words  
Just pour into my soul  
Leaving me stronger  
Leaving me wholeCome, take my hand  
Try to understand  
The things we can only see together  
What we mean when we talk about foreverCome, take my hand  
Try to understand  
The things we can only see together  
What we mean when we talk about forever  
What we mean when we talk about forever
