

# To Be Scared By An Owl

## Alesana

Look at the sky as the night descends  
The rain is crashing down, I've hit another dead end  
Just before I let hope slip away  
A shadow is revealed, the devil shows his face  
I'm scared to death and have myself to blame  
I'm to blame  
How did we end up fighting anyway?  
You know I used to search the sky and dream of where you were  
I need you by my side, we can end this together  
I know I promised you the world and still I let you down  
I need you by my side and together we'll end this now  
Look in my eyes, am I shaking now?  
I am all you fear, have I made myself clear?  
Shut your mouth and finish what you've started  
Boy, you haven't got the slightest idea  
Just who I am and what I do for you  
Don't you see that I am trying to save you?  
Shut your mouth and finish what you've started  
I'm scared to death and have myself to blame  
No one else  
How did we end up fighting anyway?  
You know I used to search the sky and dream of where you were  
I need you by my side, we can end this together  
I know I promised you the world and still I let you down  
I need you by my side and together we'll end this now  
As the last rays of sunlight fade, one killer chases another  
Through the tangled madness of the city  
A flash of steel announces the presence of his quarry  
The stage is set, the night explodes  
You killed her, you murderer  
You have stripped me of the one that I love  
Annabel, our Annabel  
You have no clue what she's capable of  
I'm scared to death and have myself to blame  
How did we end up fighting anyway?  
You know I used to search the sky and dream of where you were  
I need you by my side, we can end this together  
I know I promised you the world and still I let you down  
I need you by my side and together we'll end this now

You'd better look behind you
