

# Over You Again

Willie Nelson

I gotta get over you again  
I gotta get over you again  
I had my heart wide open  
And you just walked right on back in You can't imagine  
Just how hard it's been  
Now, I gotta get over you  
I gotta get over you again We never really had a chance  
We never really had a chance at all I was carrying more luggage  
More than U-Haul truck could haul  
And I had it all worked out  
We'd only be the best of friends Now, I gotta get over you  
I gotta get over you again Maybe I never really got over you at all  
And I've been looking in the mirror  
A lie, I didn't like at all  
Supposed to be so easy like falling off a wall And I started thinking  
Thinking about things that might have been Now, I gotta get over you  
I gotta get over you again  
And I gotta get over you  
I gotta get over you again I gotta get over you  
I gotta get over you again  
Gotta get over you  
Gotta get over you again I had my heart wide open  
And you just walked right on back in  
And I gotta get over you  
Gotta get over you again
