Reach Out

Joan Armatrading

When the world has gone crazy
And there's no one around
You can talk to, I'll be there in a hurry
'Cos I know how you feel, don't you worryReach out, I'll be there
Reach out for someone who cares
I'll be there, I'll make you feel fine, I'll put your mind at ease
I can be of help, I know I can, I can helpWhen you're looking for a friend
You won't find no better
Right on to the bitter end
Here I am, here I amWhen you feel a little bit lonely
There's no need, can't you hear meReach out, I'll be there
Reach out for someone who cares
I'll be there, I will be the one
I'll make you feel fineI can be the one
To put your mind at ease
I can be of help
I know I can, I can helpWhen you're looking for a friend
You won't find no better
Right on to the bitter end
Here I am, here I am, here I am
