

Make It Back to Memphis

Tommy Castro

If I can make it back to Memphis one more time
If I can make it back to Memphis one more time
If I can make it back to Memphis
I'll never do nothin like this
If I can make it back to Memphis one more time I went down to the corner, I called by buddy Ray
Said it's a bad idea, but let's do it anyway
So we called in sick, and put a twenty in his Cadillac
A hurried note to my baby, I swear I'll be right back We started headin south on highway 61
Been a long time, since we made this run
They got riverboat gamblin, and tunes along the Mississippi
Now I'm praying to god, lady luck is with me If I can make it back to Memphis one more time
If I can make it back to Memphis one more time
If I can make it back to Memphis
I'll never do nothin like this
If I can make it back to Memphis one more time (solo) Had a little luck, early in the night
I was up a thousand dollars, high as a kite
Then I blew all on one last hand of Texas hold'em
I should have listened to my gut, and it said fold'em Wasn't keeping track, of just how much I drank
Should have stashed another twenty in Ray's gas tank
Now the needles on empty, I can see it by the light of the moon
And if we make it back to Memphis, we're gonna have to make it on fumes If I can make it back to Memphis
one more time
If I can make it back to Memphis one more time
If I can make it back to Memphis
I swear I'll never do nothin like this
If I can make it back to Memphis one more time (solo) If I can make it back to Memphis one more time
If I can make it back to Memphis one more time
If I can make it back to Memphis
I'll never do nothin like this
If I can make it back to Memphis one more time If I can make it back to Memphis
I said I'll never do nothin like this
If I can make it back to Memphis one more time
