

# We Could Be Brilliant

## All Star United

I'm tired of trying to deliver  
So done pretending I'm devine  
It leaves me, longing to uncover  
Expose the bullet holes so you can shine

Shine like diamonds shot with light  
Burn like stars across the night  
On fire  
We could be brilliant  
Like an Oslo summer sun  
Blazing when the day is done  
On fire  
We could be brilliant

Down here everything is broken  
And we smile like everything is fine  
Let go the blows that break us open  
It's only when we're shattered]  
we can shine

Love is fire  
And fire burns  
But baby, what returns

We could be brilliant  
One in a million  
We could be brilliant

---
