Something In the Way

Best Coast

Everybody's always talking asking me why
I don't know what to say hes not my guy
And though I'm always walking you never notice me
You don't even think I feel a thingSomething in the way
Something in the way
There's something in the way you say my name
Something in the way
Something in the way
There's something in the way you say my nameI know the sun is shinin' but I wish that it was dark
You don't even listen when I talk
I know your pretty pleased your pretty pleased with me
I just wanna sit around and talk allSomething in the way
Something in the way
There's something in the way you say my name
Something in the way
Something in the way
There's something in the way you say my name
