Ultramilitance

Earth Crisis

Legal channels have been exhausted
Uncruel alternatives rejected
Awareness created and ignored
Direct action is the last recourseUltramilitance
UltramilitanceSalvation of innocents
Intensified resistanceFlooded by sabotage, disabled
Whaling ships sink beneath the waves
Strikes against roving murderers
Through destruction, innocentsPersist a rain forest seen as nothing more
Than an area on a map
To be stripped of resources
For corporate profitThe indigenous cultures
And animals are displaced
Or destroyed, unless bulldozers
Are disabled to prevent accessUltramilitance
UltramilitanceSalvation of innocents
Intensified resistanceForth from cages into the darkness
Mink liberated by masked
Rescuers laws designed to protect oppressors
Correctly regarded as worthlessNow, this war has two sides
Now, this war has two sides
Now, this war has two sides
Now, this war has two sidesUltramilitance
UltramilitanceSalvation of innocents
Intensified resistance
