

# Get Into The Wind

## Steppenwolf

Out on the highway, looking for a sign  
That will lead me to the canyon  
Got to meet some friends of mine  
I can feel the fires burnin'  
As I ride into the light  
Got to keep the wheels turnin'  
If I have to ride all night  
'Cause time is a-wastin'  
They got wine for the tastin'  
Whoa, don't you know  
Got to get into the wind  
I can hear the whistle blowin'  
As I'm comin' to the track

Got to get to where I'm goin'  
'Cause you know I can't go back  
There is somethin' deep inside me  
I can feel the chilly night  
My body's tired and restless  
But Lord, I've got to fight  
When I get to where I'm goin'  
I know just what I'll find  
The fires will be glowin'  
So I've got to make some time  
Ain't nothin' gonna stop me  
Though it's gettin' mighty cool  
I've got to keep on goin'  
'Cause the canyon is my home
